

ARE WE HEADED
FOR THE ROCKS?

"Sometimes I almost reach the conclusion that Old Nick has the world by the heels and is headed straight for perdition," remarked a Dillon father a few nights ago. "I don't know what is going to become of the next generation. I don't believe I am an old fogey, but the world has hit a pace that is too fast for me, and I believe the automobile and indulgent parents are responsible for it. In my day and time two or three couples would get together and walk to a party. We had lots of fun out of it. A boy had an opportunity to talk to his girl and he could say nice little things to her and enjoy saving them. But there is no walking these days. The boy must have an automobile. If the party is in the same block in which his girl lives he must have a \$2000 or \$3000 car to transport her back and forth. He dresses hurriedly, rushes out of the house, sails into an automobile and dashes down the street just like his time was worth \$1000 a minute. If his father tells him he should walk with his girl to and from the party he objects and says all the boys and girls in town are going in automobiles and he doesn't want to embarrass his girl by making her walk, and so there you are. What the parents ought to do is to get together and put their feet down on this foolishness. We could start the ball to rolling by getting some sensible woman to give a party and put on the invitations 'Automobiles not allowed.'"

What this parent says is true. The world is moving forward at an alarming pace and the youth of the land are hitting life in high spots. The automobile is largely responsible. As some one has said, it has taken the place of whiskey and its effects are bound to be seen in the next generation. There is something intoxicating about it, particularly among the young people.

Many of the fathers of the present day—the men at the head of affairs—used to carry their lunch to school in a tin bucket. They gathered in groups on the school grounds and enjoyed the lunch hour. But not so in this day and time. Boys and girls of the high school age are above carrying lunch to school, and as for eating on the school grounds—the suggestion would be considered preposterous. The most of them go to school in automobiles and when the lunch hour arrives they step into their automobiles and go to their homes. The world must go forward, but too fast a pace is dangerous. More walking and less riding would produce a harder race of men and women. It might pay to get back to the good old days when all children carried their lunch to school and no child was allowed to leave the school ground during the lunch hour.

DILLON POOR FRUIT COUNTY.

"We have just made a survey of the county," said County Agent Epps, "and find that Dillon ranks very low as a fruit producing county. There are 3400 farms in the county and the number of fruit trees in the county averages two and a fraction to each farm. When it is known that 50 fruit bearing trees is the average for each farm you can readily see how far Dillon is behind the country in the fruit growing industry. Each farm in the county should have at least a half acre planted in fruit trees. It would add some cash money to the farm revenue and effect a good saving in producing for the table. Our average is entirely too low, and if we can build up to 50 per cent we will profit tremendously by the increase."

Colored Bishop Did Not Give Bad Advice to Negroes.

Latta, S. C., Sept. 9, 1921.
Mr. Editor: Please allow me space in your paper to mention something relative to our church in the seventh Episcopal District (S. C.). It has been rumored that the Rt. Rev. W. M. Chappelle, D. D., gave to Negroes bad advice while holding his annual conference in Latta, S. C., in November, 1920, and he is afraid to return to this town for any purpose whatsoever. The above mentioned rumor is untrue, and was simply calculated to injure him and the church and bring strife between the races here as well as elsewhere. We therefore, affirm that this rumor is without foundation. Bishop Chappelle conducted himself manly, with dignity and spoke only those things that were necessary for the betterment of the church and ministry, and at no time discussed anything relative to racial differences. He left friends in the town of Latta and can come back any time the opportunity presents itself to him. The citizens of Latta, S. C., both white and colored stand ready to denounce such an act on the part of any individual who attempts to circulate such rumors when calculated to effect both races.

Respectfully yours,
Rev. W. J. Robinson, P. C. Level Branch.
Rev. G. F. Bartelee, P. C. Timmons-ville Station.
Rev. G. B. Flager, P. C. Unville Station.
A. R. Bethea, Steward and Secretary of Western Chapel Church.
Boston Gileg, Steward and Treasurer, Western Chapel Church.
K. C. Smith, Steward Western Chapel Church.
Rev. D. D. Doughty, P. C. Pine Hill Church.

Dillon Sweet Potato Storage Company

We wish to announce that we have completed our Potato House, which is second to none in South Carolina.

Mr. J. W. Edgerton will have charge of our potato business. Will buy and sell both Irish and Sweet potatoes, and will store potatoes. We have one car load of crates on hand which we can sell at 15 cents per crate.

After September the 1st our local sales will be strictly for cash.

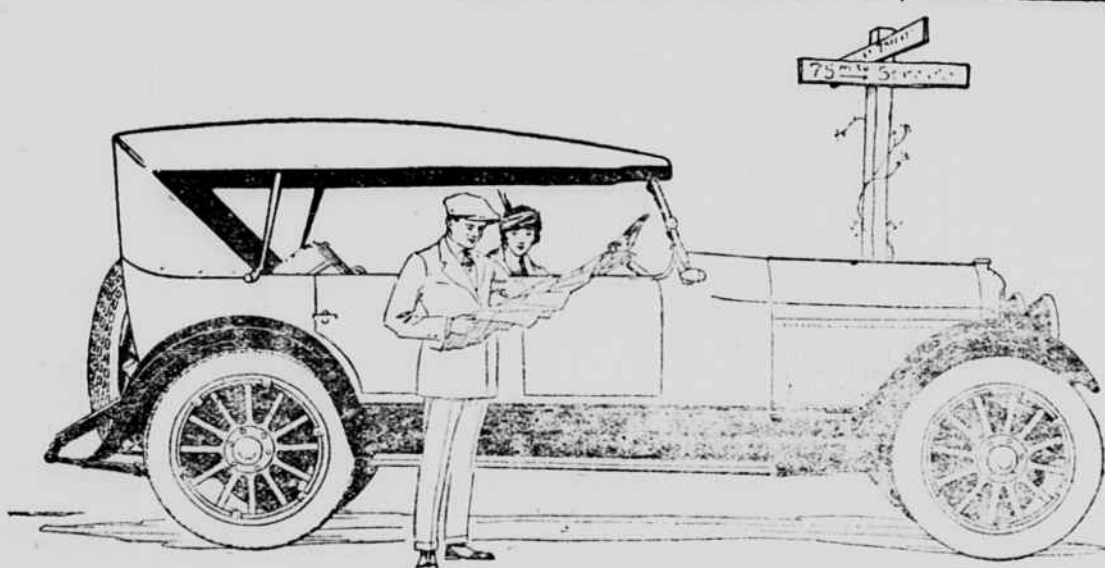

Mr. Edgerton will be on hand in the front room of the old Dillon Storage Warehouse ten hours each week day. He will make exchange of meal for corn or flour for wheat. He will keep on hand Fulghum oats and Abruzzi rye which he will sell at close cash prices. We will buy corn, wheat, oats, velvet beans or peas and pay cash for them. We will keep Formalin on hand and suggest that every hushel of oats, wheat or rye planted in Dillon County be treated to prevent smut.

We buy cotton seed and will sell fertilizers for fall grain.

Yours to serve,

DILLON SWEET POTATO STORAGE CO.

DILLON, S. C.

PAIGE

The Most Beautiful Car in America

At the New Price Where Can You Match Glenbrook Quality?

Just a short while back the Paige five-passenger touring car, Glenbrook 6-44 model, sold for \$1925.

Today, because the price is based on the prevailing costs of the readjusted materials market and the low manufacturing overhead due to our immense facilities, the list price of the Glenbrook is only \$1635.

Surely if a genuine buying opportunity ever knocked at any man's door, the Paige Glenbrook is that very opportunity waiting on your threshold.

Not only is the initial cost absurdly low for such a remarkably fine car, but the Glenbrook is a true economist. Its sturdiness is the despair of the repair man. In the hands of thousands of owners it has shown amazingly satisfactory tire and gasoline mileage.

A pure quality product, the Glenbrook has demonstrated its supreme fitness the country over. New from stem to stern there can be no sudden or unwarranted depreciation. Unquestionably it is the best and safest investment in the light six market today.
